

## WHERE IS THE OUTRAGE?

On February 10, this serial provocateur won 12% of the Israeli vote

### **Yisrael Beitenu's Avigdor Lieberman:**

**Shocked** Israel when he called for the execution of Israeli Arab Knesset members.

**Alienated** Arab citizens of Israel by inciting against them.

He even said: "They have no place here. Let them take their bags and go to hell."

**Outraged** Holocaust survivors by calling Israeli peace activists "Capos, like those who served the Nazis at the concentration camps."

**Embarrassed** Israel when he said that Egypt's President Hosni Mubarak "can go to hell" and that Egypt's Aswan dam should be bombed.

Last month, the Israeli daily Haaretz reported that Lieberman was a card-carrying member of Meir Kahane's racist Kach movement, which was eventually outlawed in Israel – and in the United States – as a terrorist organization.

In 2006, when Lieberman joined the cabinet, APN was the only national Jewish group that spoke out, loud and clear, in support of a democratic Israel led by a responsible leadership.
